

## What really is Eyelash Perming?

For any of you with straight lashes and just dying to have a long lasting curl. Eyelash Perming is the service for you.

Eyelash Perming will provide you with a permanent curl that will last for 6-8 weeks. Perfect for straight lashes, long or short.

Ideal for anyone that is fed up of using eyelash curlers every day.

It is a very relaxing service which takes around 45 minutes, sticky curling rods are placed just above your lash line and your lashes are then gently rolled back onto the roller. Perming Solution is applied for 12 minutes followed by a setting lotion to ensure the curl lasts! Finally a nourishing condition lotion is applied for 5 minutes. The curling rod is then gently removed to reveal longer, curlier lashes, the perfect doe-eyed look!
